

## Payments Portal

**Sphere's debtor payment portal offers a highly secure PCI compliant customer front end to collect and process multiple payment types. Reduce time between invoice and payment while improving satisfaction levels giving customers a convenient way to engage with your business.**

### Improved Reconciliation, Reporting & Analysis

Sphere manages the payment process from initiation through to reconciliation using its centralised payments module. Combining our direct or batch data exchange with your financial system delivers faster, more accurate reconciliation, reporting and analysis.

### Support at your Fingertips

Sphere offers a single, simple payments processing interface to multiple banks and payment networks throughout Australasia and globally. Datacom provides the tools to help support and manage your day to day banking relationships.

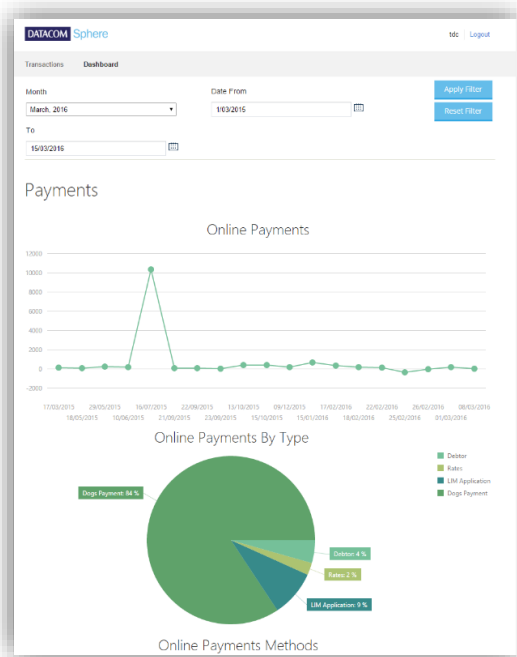

### Multiple Payment Channels

Sphere's in-built Payment Manager is a Level 1 PCI Compliant service that offers debit and credit card payments on any connected device (PC, laptop, mobile or tablet). Our payment services support single or recurring payments using tokenisation for secure transaction processing.

# Payments
